Brand New Book ***** Print on Demand *****.Excerpt from A New Government for the British Empire The first enquiry must ask, what is the nature of the State, -its origin in a narrow kindred circle, its extension by kingship, slavery, or conquest, and the accidental and artificial character of most of the con geries called Nations to-day? The body politic is treated in the light of various analogies, which seem to help us to understand its aim and purpose; as family, ?ock, army, organism, benefit or mutual aid society. Attention will be drawn to the fact that modern nations are the creatures of Royalty, and rest on tacit or explicit covenants between rulers and ruled - a contract visible enough, even in the earliest days, between government or ruling class (nearly always alien and invading), and a subject race. This is true in our own time, when the State appears in the light of a joint-stock corporation for common life and mutual profit, with a shifting board of directors chosen by the Shareholders. Here, the con tract is explicit, and its secular and utilitarian motive conspicuous. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
