Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.-Buy Gold Save Gold! The \$10 K Logic- examines 44 graphs of national debt, M2 Money Supply, The Dow Jones Industrial Average, expenses for U. S. government programs, prices of crude oil, silver and many more to show why most prices, including gold, have increased exponentially for over 100 years. Based on analysis of those 44 graphs, calculations from Jim Sinclair and James Rickards, a gold valuation model, and time cycles, the price of gold will reach \$10,000. This study explains the logic of much higher gold prices with easily understood graphs and text. Hyper-inflation, if the Federal Reserve and the U.S. government choose that path, will quickly devalue the dollar and push gold prices to astronomical levels far higher than \$10,000. The author is the writer and owner of the website Foreword was written by Bill Holter.
