

Central Bankers at the End of Their Rope?: Monetary Policy and the Coming Depression (Paperback)

By Jack Rasmus

Clarity Press, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. Central banks are becoming a force of economic destabilisation in the 21st century - contrary to accepted notions of contemporary economic theory. The basic functions of central banks-whether managing money supply, supervising private banks, bailing out failing banks, stabilising prices, promoting real investment, employment and growth-have all entered a state of increasing decay, breakdown and failure. Central banks globally: have been losing control, individually and collectively, of the global money supply; progressively destabilised the global economy with decades of ever. rising liquidity and debt; chronically failed to prevent financial asset inflation bubbles or stop the steady drift toward deflation in goods, money and labour prices; I have been unable to adapt to technology forces that have fundamentally restructured the global financial system; effectively ignored the growth of: capital markets, inside credit and shadow banking; failed to regulate and supervise private banks that remain, post-2008, still addicted to high risk taking; proved unable to develop policies and tools to effectively stimulate investment, jobs, and real GDP; and failed to construct a stable system to replace the gold standard or the Bretton Woods international monetary systems. The book...
