Reviews

A very amazing publication with perfect and lucid information. We have read through and that i am certain that i will planning to study once more yet again in the future. You will not really feel monotony at anytime of the time (that's what catalogues are for about should you question me).

THE PRESCRIBER: A DICTIONARY OF THE NEW THERAPEUTICS (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Prescriber: A Dictionary of the New Therapeutics I must ask my readers to be kind enough to read with care those portions of my Preface to the Third Edition, which I shall quote below, in order that they may understand clearly my aim. When I commenced to practice Homoeopathy, now more than twenty years ago, there was no pocket companion of the kind; and the text books on homoeopathic therapeutics gave little help in matter of attenuation, dose and how often to repeat-the very points most wanted by a novice. One of my objects in writing this book was to supply these details. But the last thing I desire is to be dogmatic - except in in so far as dogmatism can help a beginner. And as many homeopaths, who are anything but beginners, have been good enough to say they have found the prescriber useful, I wish it to be understood that my directions as to dose, etc., are not intended to supersede the teachings of individual experience.
