Drinking Water Storage: (FREE Bonus Included) 15 Lessons How to Store Water for Drinking and Cooking During Disaster Next to Oxygen, water is the most vital resource that we need for survival. We can't go more than a few days without it, and for most of us, just a day or so with nothing to drink will leave us feeling pretty dry pretty fast. So how could you create your own water supply if you were in a pinch? Do you even know where to look? Not to worry my friends; just look in this book! This book is full of inventive ideas to store up water for tight situations. Whether you are waiting out a hurricane, power outage, or some other disaster related event, this book outlines exactly what you need to be able to store enough water to see yourself through the crisis. Using science and a bit of common sense, the writer of this book has...
