High Museum of Art. 1 Paperback(s), 1992. soft. Book Condition: New. Much of the evolution of sport in the modern world has been intimately connected with the parallel evolution of the camera, a point made clearly in this exhibit catalogue of sporting images, illuminating how the development of sophisticated photographic technology has shaped our perception of sports. The 32 color and 102 black and white images here include Eadweard Muybridge's motion study of the horse Abe Edgington at a trot, David Hockney's multiple-exposure cubist portrait of an ice skater, the stunningly beautiful painted desert surrounding the track of a Navajo tribal school, and Robert Mapplethorpe's image of bodybuilder Lisa Lyon. 128.
