This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. This book provides an authoritative history of the Brazilian army from the army's overthrow of the monarchy in 1889 to its support of the coup that established Brazil's first civilian dictatorship in 1937. The period between these two events laid the political foundations of modern Brazil-a period in which the army served as the core institution of an expanding and modernizing Brazilian state. The book is based on detailed research in Brazilian, British, American, and French archives, and on numerous interviews with surviving military and civilian leaders. It also makes extensive use of hitherto unused internal army documents, as well as of private correspondence and diaries. It is thus able to shed new light on the army's personnel and ethos, on its ties with civilian elites, on the consequences of military professionalization, and on how the army reinvented itself after the collapse of its command structure in the crisis of 1930-a reinvention that allowed the army to become the backbone of the post-1937 dictatorship of Getulio Vargas.
