

Robert Plant: Led Zeppelin, Jimmy Page and the Solo Years (Paperback)

Filesize: 2.52 MB

Reviews

This book is so gripping and fascinating. Of course, it is actually perform, still an interesting and amazing literature. You will not feel monotony at anytime of your respective time (that's what catalogs are for about in the event you request me).
(Prof. Ophelia Wiegand I)

John Blake Publishing Ltd, United Kingdom, 2008. Paperback. Condition: New. Language: English . Brand New Book. Robert Plant is a genuine rock legend. The tumultuous but endlessly fascinating tale of Led Zeppelin is central to his life, but that twelve-year period ended with the sad and premature death of drummer John Bonzo Bonham in 1980; in the twenty-five years since, Plant has been recording new music almost constantly. For the first time, his solo years - famously working with his former Led Zep cohort Jimmy Page, numerous guest appearances and his own material - are covered in depth. This complete rock biography reveals how he teamed up with Jimmy Page in 1994 only to see their two-album partnership come to an abrupt and controversial end in 1998 and Plant's earliest and ongoing influences and passions such as Southern American blues and classic fifties RB. Neil Daniel's also delves into the likes of his revered solo album Dreamland, consisting of a relatively obscure batch of cover songs and places Plant's later work in the wider context of both Led Zep's own legacy and the broader history of modern music. Full up to date, covering his latest album Raising Sand with the revered bluegrass singer Alison Krauss and the highly-publicised Led Zeppelin reunion in December, 2007, this is the compelling story of an enthusiastic young kid from the West Midlands who belied his humble blues roots and defied his stern parents by becoming one of the world's most recognisable and iconic rock superstars.
