Now more than ever, doctors are being targeted by government prosecutors and whistleblowers challenging the legality of their relationships with drug and device companies. With reputations at stake and the risk of civil and criminal liability, it is incumbent upon doctors to protect themselves. Managing Relationships with Industry: A Physician s Compliance Manual is an indispensable resource for doctors, professional societies, academic medical centers, community hospitals, and group practices struggling to understand the ever changing law and ethical standards on interactions with pharmaceutical and device companies. It is the first comprehensive summary of the law and ethics on physician relationships with industry written for the physician. Authored by a former state Attorney General, Harvard Medical School Professor, health care lawyer and professor of ethics, Managing Relationships approaches the topic from a balanced and reasoned perspective adding to the on-going national dialogue and debate on the proper limits to medicine s relationship with industry.
