

The Limits of Fabrication: Materials Science, Materialist Poetics (Hardback)

Filesize: 4.58 MB

Reviews

The most effective ebook i possibly go through. I am quite late in start reading this one, but better then never. Its been designed in an extremely basic way and it is just after i finished reading this ebook by which basically transformed me, modify the way i believe.

THE LIMITS OF FABRICATION: MATERIALS SCIENCE, MATERIALIST POETICS (HARDBACK)

[DOWNLOAD](#)

Fordham University Press, United States, 2017. Hardback. Condition: New. Language: English . Brand New Book. Poetry, or poesis, has long been understood as a practice of making. But how are experiments in the making of poetic forms related to formal making in science and engineering? *The Limits of Fabrication* takes up this question in the context of recent developments in nanoscale materials science, investigating concepts and ideologies of form at stake in new approaches to material construction. Tracing the direct pertinence of fields crucial to the new materials science (nanotechnology, biotechnology, crystallography, and geodesic design) in the work of Shanxing Wang, Caroline Bergvall, Christian Boek, and Ronald Johnson back to the midcentury development of Charles Olson's objectist poetics, Nathan Brown carves out a tradition of constructivist, nonorganic poetics that has developed in conversation with science and engineering. While proposing a new approach to the relation of *techne* (craft, skill) and *poiesis* (making, forming), this book also intervenes in philosophical debates concerning the concept of the object, the distinction between organic and inorganic matter, theories of self-organization, and the relation between design and nature. Engaging with Heidegger, Agamben, Whitehead, Stiegler, and Nancy, Brown shows that materials science and materialist poetics offer crucial resources for thinking through the direction of contemporary materialist philosophy.
