THE QUALITY OF LIFE IN LATIN AMERICAN CITIES: MARKETS AND PERCEPTION (PAPERBACK)

World Bank Publications, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book. In Latin America, a region with a majority population in urban areas, criteria to prioritize policy actions for improving the quality of life in the region s rapidly growing cities is greatly needed. Although housing infrastructure has improved, a variety of problems affect many cities including insecurity, severe socioeconomic segregation, a lack of public spaces and poor transport infrastructure. Looking at eight cities in six Latin American countries, the authors use a methodology that combines the hedonic pricing method and the life-satisfaction approach to identify and value housing characteristics and neighborhood amenities and services. The valuations, in turn, are used to produce quality of life indices to compare neighborhoods and assess the potential impact of improved public amenities and services on housing prices and quality of life for different socioeconomic groups.
