Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Parental alienation is when one parent needlessly programs a child to reject the other parent, and often other members of the family. Alienation can happen in any family, very quickly and without warning, severely disrupt children s development and their lifelong mental health. Children subjected to these specific forms of pathological parenting and psychological control can become brainwashed, induced with delusions and so enmeshed with an alienator that only protective separation will enable them to quickly regain a normal mental health profile. Effective interventions are, however, denied by professionals and courts. Instead, parents, grandparents and wider family members can be legitimately ostracised from children overnight by alienators, often with the active collaboration of several agencies of state, not least social workers and family judges. Stuart Hontree (a pseudonym) details the risks involved with private family courts and how they often ruin or sever biological and family connections. He collates the principles of psychology and medical experts with how family courts deal with, and contribute to, the growing problem of parental alienation. The literature of leading clinical, forensic and psychotherapeutic experts who form the foundations for best practice is then compared to the normal practices of the UK family courts that deal with parental alienation. The results are shocking. The neurology of the human attachment system that drives us to form intimate bonds is explained, and how its disruption and manipulation by alienators destroys childhoods and wider families. The book is full of advice on how to spot the warning signs, typical alienation strategies, and how to try to insulate children against the risky effects. There are survival tips for targeted parents and a crash-course in the relevant law. Attachment science is, however,...
