

The World in the Middle Ages; An Historical Geography, with Accounts of the Origin and Development, the Institutions and Literature, the Manners and C

By Adolphus Louis Koeppen

Theclassics.Us, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1856 edition. Excerpt: . they were themselves deficient in the most simple geographical knowledge; the few data, which they furnish here and there, are often erroneous or uncertain, mostly full of wonders and superstitions from the hearsay repetitions of credulous travellers, pilgrims or crusaders. Sometimes their reports disagree with the physical geography of the countries, or are contradicted by the relations of other writers of the same time. We shall therefore limit our manual of medieval geography, to a general description of the political position of Europe, and the adjacent parts of western Asia and northern Africa, during eight of the most important periods of universa? history, between the fourth and the sixteenth centuries, which are illustrated by the annexed six general historical maps. 2. General Division Of Medieval Geography. Period I.--The political geography of the Roman Empire, after its final division in eastern and western Rome,...

Reviews

Undoubtedly, this is the best function by any writer. This really is for those who statte there was not a really worth reading. Its been written in an exceptionally basic way which is merely right after i finished reading through this book by which really transformed me, change the way i really believe.
