Percentage Possibility Publications, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Often hilarious, ultimately profound, *Thirty Percent Chance of Enlightenment* begins when Tim Brookes receives a phone call from his editor at National Geographic asking if he'd like to write an article on weather forecasting-an assignment that doesn't go as forecast.He embarks on an adventure that starts in a hurricane on an icy mountaintop in New Hampshire and takes him to India to watch the monsoon come ashore and write about the elaborate, almost mystical art of monsoon forecasting. When the rain begins, however, a series of misunderstandings finds him banned from every single office of the India Meteorological Department.Before long, his journey turns into a cross-country road trip in search of the true meaning of the monsoon-a trip that takes him through the spice villages high in the Western Ghats, to a Hindu wedding at which all the main participants end up drenched, and leaves him ankle-deep in a holy river where the temple elephants bathe. He discovers the history of the umbrella, the bizarre ritual of rain-inducing donkey weddings, and for his erratic and dusty labors, he ends up being rewarded with a glimpse into the spiritual nature of water.
