Global Leadership Ltd, United Kingdom, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. PRICE DROP for the latest Heathrow Consultation process: the facts remain so very pertinent. The Heathrow Report 2015: What the Airports Commission Missed. - This book is the author's contribution to the debate on the proposed expansion of Heathrow Airport. It focuses on the harmful long-term societal problems of Heathrow, which have been magnified every few years by government decision-making, based on short-term thinking and questionable aims, driven by business, always in the face of strong public protest. The new airports decision-making process does not properly take into account the many aspects of airport operations that are detrimental to the population of Greater London; such as the probability of an aircraft disaster on London, which is high, at around one crash every 10 years or so. The potential for catastrophe has been well researched and detailed in television documentaries over the years. Yet these facts continue to be ignored by decision-makers. There is no public body with specific responsibility for managing the risks to the health and safety of the general public on the ground, in response to the vast resources poured into putting forward the interests of business. There needs to be. On a wider level, democracy in the UK is failing. This book uses the Heathrow issue to illustrate how and why this is so. It offers recommendations on how this situation can be transformed, leading us towards a more sensible future. At the Heathrow Terminal 5 planning inquiry in 1998, the author established that the aircraft crash risk on London from Heathrow operations at that time was one crash every 5 to 14 years. He pointed out that no body was responsible for calculating or managing...
