EXCAVATION GRADING HANDBOOK

Craftsman Book Company. Paperback. Book Condition: New. Paperback. 514 pages. Dimensions: 10.8in. x 8.3in. x 1.3in. This new edition of a trusted reference has been completely updated to keep excavating contractors, operating engineers, and those learning the trade current with state-of-the-art equipment usage and the most efficient excavating and grading techniques. Whether you're already in the business, or planning to take the leap, this book borrows from years of down-in-the dirt experiences of trusted authority, Nick Capachi. It's an encyclopedia of excavating and grading knowledge, including photographs and diagrams that illustrate just how the work should be done. Co-written with his son, John, Nick combines their nearly 70 years on the job to teach you -- in simple terms -- just what you need to know to reach and stay at the top of your game. In these pages you'll learn how to read topo maps, set crow's feet, install water, drain, and sewer pipes, lay or remove asphaltic concrete, use a laser level, cut drainage channels, pressure-test sewer pipes, and use GPS and sonar for absolute precision. No jobsite is without problems. Knowing how to deal with these problems, or how to prevent them, can save you hours -- even days. In this practical manual, the authors guide you through just about every difficulty you'll find on a job site. You'll find procedures and essential job-sequencing techniques that can make or break a job, plus pointers for tough situations that other earthwork instruction manuals don't want to tackle. NEW in this edition: GPS -- Global Positioning System -- a time-saving survey and grade-control tool installed on much of the heavy equipment you'll be using. Also includes use of sonar technologies. Using these two technologies will save you time and money on most of your jobs. CD-ROM included: Testing is the...
