Reviews

Completely essential study publication. Better then never, though i am quite late in start reading this one. I am very easily could get a delight of reading a composed publication.

(Marilyne Macejkovic)

SYSTEMATICS IN PREHISTORY (PAPERBACK)

The Blackburn Press, United States, 2002. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Systematics in Prehistory was originally published in 1971. It soon became an essential book for anyone who wished to understand the principles of classification and how they are applied in archaeology. The book clarifies differences among the various kinds of classification (paradigmatic, taxonomic) and discusses the appropriate uses of each. It also discusses groups and grouping devices and how they differ from classification. This continues to be an area of considerable confusion in archaeology. This book is as useful to graduate students and professionals in archaeology now as it was 30 years ago. Its materials have not become dated nor have they been superceded by more recent treatments. This work remains a crucial foundation for knowledgeable application of systematics in archaeology. Dunnell's primary goal was to develop a conceptual framework for the study of prehistory based on systematics. Part I of the book provides an introduction to systematics. Here Dunnell builds a precise and beautifully consistent structure of concepts applicable to phenomena in general. Part II proceeds to illustrate the application of systematics to prehistory. The treatment is concise and rigorous. From an original review of the book in Mankind: This book makes two original contributions of considerable value to the literature of archaeological theory. First, it not only recognizes the debt which the new archaeology owes to the old archaeology but it attempts reconciliation between the two. Second, it examines with precision and rigor the basic concepts which prehistorians use implicitly and attempts to make both their usage and their definition explicit. After graduate work at Yale, Dr. Robert C. Dunnell was appointed Professor of Anthropology at the University of Washington, Seattle, where he remained for thirty years....
