Roya Publications, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Managed Mischief is an improv how-to kit, helping parents and teachers celebrate everyday creativity with the kids in their lives with games inspired by improvisation, which emphasizes making something fun happen--and not just onstage before an audience, but ANYWHERE. Improv training is not only in demand to train entertainers, but also to help people to shed fear of public speaking and social interaction, to trust their own creative ideas, and even to improve team dynamics in the grownup workplace. Whether or not you have any prior improv experience, this book will walk you through how to teach and play these self-guided games that boost creativity, confidence, and collaborative thinking. You can play these games in the classroom, the car, the playground, or even in a public space. These games don't need an audience, and you win by working together to create something delightful. There are games to challenge different abilities, from verbal to physical to artistic--writing, drawing, painting, dancing, and making music. The book is called a toolkit because it contains some improv philosophy, guides for teaching and playing the exercises, and plenty of tips for mixing things up on your own. With background knowledge on improv and a fundamental understanding of how games work, there are no limits: you can combine games, string them together, change the rules, or even make up your own games! Whether you're shy or a showoff, these games let people of all ages practice vital life skills such as: trying new things, voicing your own ideas, championing others' ideas, working together to make something, taking turns being in charge, being unafraid to be weird, and taking joy in the world all around.
