Brand New Book. Excerpt from Marketing Activities, Vol. 4: April, 1941 The market reporter frequently goes to the radio station. In some places this works about as well as remote control, particularly in cities where the distance between the market news office and the station is a matter of only a few blocks. Broadcasts by the official Government market reporters are by far the most popular because the reports are pre sented by men who are on the firing line of trading. One of the big problems has been that of getting information to stations located some distance from the nearest market news office while the information still has the element of timeliness. It would cost the Department Of Agriculture a tremendous sum annually to telephone or to telegraph to the stations all the market information that could be used At the same time, most stations feel that they cannot afford to pay for messages to present a nonrevenue - producing public service program. The press associations are a way out of this dilemma. Today, the press associations wires and printers are in nearly all of the radio stations, and the market reports they carry are a vital link in the chain from market to producer or consumer. During the past 3 years there has been a rapid increase in the number of stations subscribing to these news services; and paralleling this growth has been the increased volume and variety of market information carried.
