Springer. Paperback. Book Condition: New. Paperback. 201 pages. Dimensions: 9.2in. x 6.1in. x 0.5in. This volume contains three invited lectures and sixteen other papers which were presented at the 14th International Conference on Near-rings and Near-fields held in Stellenbosch, South Africa, July 9-16, 1997. It was also the first near-ring conference to be held after the untimely death of James R Clay, who over the years had been an inspiration to many algebraists interested in near-ring theory. The occasion was marked by the invited talk of Gerhard Betsch, which was devoted to an overview of Clay's contributions to near-ring and near-field theory. This book is affectionately dedicated to the memory of James R Clay. All the papers presented here have been refereed under the supervision of the Editorial Board: Fong Yuen, Carl Maxson, John Meldrum, Günter Pilz, Leon van Wyk and Andries van der Walt. Thanks are due to the referees and to the Editorial Board. A special word of thanks is due to Wen-fong Ke for preparing the final version of the TEX files, and to Fong Yuen for his pains in arranging for the publication of the volume with Kluwer Academic Publishers. Stellenbosch, August 1999

Reviews

A brand new ebook with a brand new standpoint. I have read through and that I am certain that I am going to go through again once more in the future. It's been developed in a remarkably simple way in fact it is merely right after I finished reading through this book in which basically modified me, modify the way in my opinion.

A top quality ebook as well as the typeface used was interesting to see. It usually fails to charge an excessive amount of. Once you begin to read the book, it is extremely difficult to leave it before concluding.
