Much of the initial activity and efficiency of the Board of Health has been due to the urgings of the Milk Committee. The adoption of standards was originally proposed by the National Commission on Milk Standards, which still retains its organization for the purpose of promoting the adoption of standards by other cities in the country. The work of such organizations, when constructive and comprehensive in its nature, is very valuable. The tendency, however, is for them to pick out one particular interest of the industry for exposure and criticism without taking into consideration that to assail unduly one of its branches may have a detrimental effect upon the whole industry. Perhaps the most successful and permanent type of control is that which takes its origin in the private interests of the industry itself. Certain...
