Univ Of Minnesota Press. Paperback. Book Condition: New. Paperback. 304 pages. Dimensions: 8.9in. x 5.9in. x 0.9in. Rich with analyses of concepts from deconstruction, systems theory, and post-Marxism, with critiques of fundamentalist thought and the war on terror, this volume argues for developing a philosophy of being in order to overcome the quandary of postmodern relativism. Undergirding the contributions are the premises that ontology is a vital concept for philosophy today, that an acceptable leftist ontology must avoid the kind of identity politics that has dominated recent cultural studies, and that a new ontology must be situated within global capitalism. A Leftist Ontology offers a timely intervention in political philosophy, featuring some of the leading voices of our time.
