Progressive Press. Paperback. Book Condition: New. Paperback. 192 pages. Dimensions: 8.8in. x 5.9in. x 0.5in. Fact vs. Fiction about 911 What if the official version of events on 911 could be disproven solely on the basis of physics, mathematical equations, scientific formulas, physical evidence, and expert testimony without the use of a single conspiracy theory Might this dramatically alter your perspective on 9-11 and the war and security policies that are based on it That is exactly how 9-11 on Trial disproves the governments official story which it happens to be using to suspend our normal, peaceful, constitutional American way of life. Did you know that never before nor since 911 has a steel building ever collapsed due to fire Yet on 9-11, three of them supposedly did just that in seven hours with WTC 7 not even being hit by an airliner. All three steel-frame buildings hit the ground at free-fall speed physically impossible unless all resistance beneath was blown away by controlled demolition. Even the government admitted in their final FEMA report that The heat produced by burning jet fuel does not by itself appear to have been sufficient to initiate the structural collapse. How to explain the pools of molten steel which were found bubbling 70 feet beneath the towers five weeks after 9-11 A temperature of 5, 182 F is needed to melt steel yet the estimated heat of the fires in the WTC was only between 300 F and 500 F, and jet fuel can only reach a maximum temperature of 1, 517 F in ideal conditions. 911 on Trial is the final answer to obfuscation, intimidation and disinformation, because it is clarity itself. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
