

Mathematical questions and solutions in continuation of the mathematical columns of the Educational times Volume 49

Filesize: 5.84 MB

Reviews

I just started out reading this ebook. It is rally exciting through reading through time. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Leonie Collins)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 28 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1888 Excerpt: . . . the same nine-point circle; also find (3) the equation of the circum-circle of ABC and the angle at which the two circum-circles cut each other. 9217. (Major-General P. Oconnell.)--In using either the French or English Arithmometer, any two numbers each containing less than nine figures can be multiplied together, and the sum of a series each term of which is the product of two such numbers, whether positive or negative, can be obtained without writing down any figures. It is required to find a formula for the product true to, say, thirteen figures on two numbers each of sixteen figures, so that the result may be obtained by the use of the Arithmometer alone, i. e. , without intermediate record. Solution by Profs. Aiyar, B. A. ; Sircom, M. A. ; and others. If $a, 3$ be two roots of the second equation, the other two roots are Therefore the second equation is reducible to evidently and Solution by W. J. Greenstreet, B. A. ; Sarah Marks, B. sc; and others. Consider motions in two directions perpendicular to each other. After a time t , draw EN, JN, SCN perpendicular to Sx. Then SN $\cos \omega t$. The position of satellite relative to Earth is given by $j \sin \omega t, s \sin \omega t, j \cos \omega t, s \cos \omega t$ W-21 Relative velocities in same directions are $s \sin \omega t, j \cos \omega t, s \cos \omega t, j \sin \omega t$ (Rev. T. C. Simmons, M. A.)--Prove that the Taylor-circle of a triangle is always greater than its cosine...
