Brand New Book ***** Print on Demand *****.An excerpt from the INTRODUCTION: EARLY in the year 1887 my attention was first called to the fact that the great problem of the Causation of Sex in Mankind was still unsolved. The inquiries which I then began to make soon showed me how much in the dark the medical profession is on the subject. The whole question of the Causation of Sex in Mankind had been hedged around, encumbered and obscured with observations ad nauseam on the eggs of the invertebrata; on worms and tadpoles; on sponges, and plants; on bees, and water-fleas; and lastly, on hens eggs, to which nothing more dissimilar could be found than the human egg or ovum. If ever it be true that the proper study of mankind is man, it is in this study of the causation of sex, and therefore I have made it chiefly a clinical study. Among the large number of theories which had been advanced, the great majority were quite untenable, and were propounded without any clinical evidence or facts to support them; several others I found had been suggested which were diametrically contradictory to a theory which some former writer had advocated. A few of these I mention in the text. As a general practitioner of medicine, the daily round of work, the ever-present necessity of earning one's living, sadly interfered with, and was hardly conducive to, close study of and inquiry into such an engrossing subject, and so progress was slow; but we must remember, as Dr. Samuel Johnson said, it is dangerous to quiet our uneasiness by the delusive opiate of hasty persuasion; for the answers to most great questions have only been arrived at after much...
