Hidden Treasures of Yoga

By T.K. Rajagopalan

New Bharatiya Book Corporation, New Delhi, India, 2005. Softcover. Book Condition: New. First Edition. In this book, it has been my endeavours to set out in simple language, A Few processes of yogic development, which have not so far been available to the readers of Book on Yoga. I have described in some detail the fundamental concepts on which the practice is based. The subject being one of universal interest, entirely free from religious and geographical limitations. I have freely quoted the parallel experiences of western adepts and scientists. I have adhered as far as possible closely to the literal wording of the various texts on the subject, even to the extent of allowing the language to appear "queer" in places. I have given a fairly full list of the various publications to which I have made reference. I hope this will assist my readers in their further studies of the subject. Printed Pages: 220.
