

CAD \ CAM technology (National Vocational Education and quality planning materials)

By -

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping , Free Tracking number will be provided after the shipment.Pages Number: 239 Publisher: Beijing Jiaotong University Pub. Date :2011-01-01 version 1 by Liu Youfang and support security forces editor of CAD \ CAM technology to ProE software platform. starting from the sketch plane. the parameters design. 3D modeling . zero Shao parts assembly. body simulation. sports. the drawing up key parts of the NC machining. The book is divided into parts-dimensional modeling . surface modeling design n. engineering operations. ProE NC NC 4 modules. 14 learning task. 48 typical cases. each case is extracted from the production of real life examples. covering the ProE and knowledge of a variety of basic functions and products from the point of modeling . assembly. the engineering drawings. process simulation exercise to simulate the entire design process. the case cited financial knowledge. ability. interest in one. CAD \ CAM technology not only for vocational students in mechanical learning materials. as an external training. CAD Grading research. CNC Competition. die contest. three-dimensional modeling contest training materials also make you very satisfactory results. Contents: Module ten task of a three-dimensional modeling ProE software interface and the basic operation...

Reviews

The book is great and fantastic. Better then never, though i am quite late in start reading this one. I realized this publication from my dad and i advised this ebook to find out.

-- **Dr. Blair Mann**

Most of these ebook is the ideal pdf readily available. it was actually writtern quite flawlessly and valuable. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Prof. Jordy Kihn**
