Xlibris Corporation, United States, 2006. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This book tells of a voyage of discovery by the author, a retired Bechtel chief process engineer and chemical engineering society director, whose previous writings concerned Methane Valorization and Fischer-Tropsch Reactor Design. Trying to explain why a thirteen year old boy would join a Quaker expedition to Philadelphia in 1686 he devises a fictionalized account that is eventually supported by genetic testing. Along the way he discovers, among his ancestors, a master carpenter turned politician, America's first golf club owner and a doctor of whom it was written, There was a popular notion that he cured his patients. He finds a Young Squire who taunts the British with school pamphlets during the Revolutionary War and several Quakers who were sent off to Virginia during that war - much as we locked up the Japanese during World War II. While written as a family history, the reader will find tie-ins to Benjamin Franklin's papers, to Shakespeare's The Tempest, to a British diarist who wrote about William Wordsworth and to an anti-slavery tract by Fanny Kemble. The book sheds light on family's papers kept under wraps at historical libraries but leaves the final answers up to future generations. In the author's own words, I became interested in Fox family genealogy as a result of a business trip to Bechtel's London Office in 1974. While there as the process design manager for an Algerian Liquefied Natural Gas project, I took the opportunity to visit the Friends Library on Euston Road. There I found a family tree called Descendants of Francis Fox of St. German's, by Joseph Foster and also Anne Cresson's biography of my own ancestor, Joseph Fox,...
