Brand New Book ***** Print on Demand *****.Excerpt from A Discourse on Rational Education In presenting this pamphlet to the public, I do so with the full assurance that it should be read by all lovers of Education and Progress. Education, in the past, has been improperly understood by those who have acted in that important capacity of Parent and Teacher. Man is to a great extent a creature of circumstances, as his character is formed by his surroundings. Everything that makes an impression upon his mind, either tends to educate him in the Paths of Truth, or to direct his mind in the slothful channels of Vice and Misery. Everything that comes in contact with our vision, is educational in its effects; hence, it has been truly said, that he that runs may read, and gather knowledge, but not always wisdom. The first lessons which we receive, are while the soul-germ of our being is slumbering in the embryo of Fetal development.
