iUniverse, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Al Gore and the liberal left would have you believe the world is in an energy crisis. They would have you believe that only alternative energies- green energies- will save us from this crisis and the world from self-destruction. Gerald Westbrook has a rebuttal. Westbrook spent his career in the energy field, working with a wide variety of energy sources that have proved their efficacy, if only the Gorons would quiet down for a second. How Green Are the Gorons?: Liberal Propaganda Out of Control is an in-depth review of our country s energy situation, written by an informed man who has been there and seen that. Westbrook discusses the research behind global warming. Pulling from his extensive experience, he provides comments and examples on key American energy sources. He would argue that it is much too soon to enter into a carbon-free world! It s also much too soon to panic. The Goron propaganda has convinced the country that we are in crisis. The current podium propaganda is so loud that it operates at the level of a nationwide white noise, blocking out analysis and debate. By utilizing our energy sources-including fossil fuels-in a cost-effective way, our energy situation will be manageable.
