THE WIKI WAY OF LEARNING: CREATING LEARNING EXPERIENCES USING COLLABORATIVE WEB PAGES (PAPERBACK)

American Library Association, United States, 2016. Paperback Condition: New. Language: English . Brand New Book. Given the limited budgets of schools, educators, and school librarians, free and open source tools for learning are more important than ever. Essentially, wikis are easily accessible webpages for creating, browsing, and searching through information, making them ideal vehicles for teaching and collaboration. In this pathbreaking collection, theoreticians and practitioners from a range of international settings explore how wikis are being used to create learning...

Reviews

A brand new e book with a brand new standpoint. I have read through and that i am certain that i am going to gonna go through again once more in the future. Its been developed in an remarkably simple way in fact it is merely right after i finished reading through this book in which basically modified me, modify the way in my opinion.

-- Prof. Llewellyn Thiel

Absolutely essential go through publication. This can be for all who statte there was not a worthy of looking at. Its been printed in an remarkably basic way and it is just right after i finished reading this book through which in fact altered me, modify the way i think.

-- Dr. Haskell Osinski
