By Dr. Swati Save

2016. Hardcover. Book Condition: New. 228 ABOUT THE BOOK:- This book is an effort to understand the challenges faced by Africa in the water and energy sector. This study made an attempt to understand what it really means by naturalization of the nation and nationalization of nature for Africa. It did so by looking at repetition of trans boundary water conflicts within a state and its impact on energy security and economic development. These circumstances, the book infers might have been responsible for massive deforestation, internal migration, soil erosion and disruption of growth in the continent. The book recommends to understand this trend of use of renewable's in the region, which might be an indicator to address the energy security within the continent. It proposes creation of enabling environment for the national governments to develop budgets that would invest in prioritize energy access through decentralized energy services systems. The book suggests creation of PRSPs using oil revenue fund to revitalize the economy. ABOUT THE AUTHOR:- Dr. Swati Save, is a leader fostering use of Science for Sustainability. She is an ivy league trained with a M.S. in Science Policy and a Ph.D. in...

Reviews

The ebook is easy to go through easier to recognize. We have study and i am certain that i will planning to read through once again once again in the future. I am quickly will get a pleasure of studying a composed publication.

-- Prof. Adah Mertz Sr.
