Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from International Library of Technology: A Series of Textbook for Persons Engaged in the Engineering Professions and Trades or for Those Who Desire Information Concerning Them, Fully Illustrated and Containing Numerous Practical Examples and Their Solutions, Electric Transmission, Electric Light Complete instructions regarding electric transmission, electric lighting, and the wiring of buildings for light and power are given in this volume. In the portion relating to electric transmission the various systems of transmitting electrical energy, both by direct and alternating current, are explained in the greatest detail. In Electric Lighting all the important systems of distribution are described, and special attention is given to enclosed arc lamps and their operation. Arc-lamp connections are explained more clearly than in any textbook heretofore published, and the same is true regarding arc-light switchboards. In presenting the subject of Interior Wiring the Object has been to Show how work should be done in order to be safe and in accordance with the Under writers requirements. Interior Wiring is a branch that has been sadly neglected in nearly all electrical textbooks, and the present papers are easily...

Reviews

This book may be worth purchasing. I was able to comprehend every thing using this published e publication. I am happy to let you know that this is the very best ebook i have got read inside my very own daily life and could be the finest ebook for actually.

-- Rhoda Durgan PhD

Completely among the best pdf I actually have possibly read through. It is probably the most awesome pdf we have read. You wont really feel monotony at whenever you want of your time (that's what catalogs are for about in the event you ask me).

-- Prof. Martine Lesch
