Excerpt from The Universal Medical Journal, 1894, Vol. 2: A Monthly Magazine of the Progress of Every Branch of Medicine in All Parts of the World Dr. Sottas, speaking of retrograde degeneration of the anterior pyramids, remarked that in four cases of transverse lesions of the Spinal cord, of syphilitic origin, in which. He had had occasion to observe, he had found, together with the classic secondary degeneration, an ascending degeneration of the anterior pyramids. This does not appear to be connected with a destructive process of the funicular cells of the gray substance, but with a retrograde degeneration - a fact already supported by experimental anatomy. Dr. Henry fraenkel reports some experiments upon animals, in which, after the injection of urine into the veins, he has observed in certain cases that some urines possess antidiuretic properties.
