Algebra for Schools (Classic Reprint)

By George W Evans

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Algebra for Schools In the arrangement of topics in this book an effort has been made to preserve the pupil from the besetting sin of conceiving algebraic operations as a species of legerdemain. This end could best be secured, it seemed to me, by making practical problems the point of departure, initially and at each new turn of the subject. With a concrete case in mind, the pupil can hardly fail to perceive not only the need for the process that he is set to study, but also its rational basis and its economy. In this larger appeal to the practical sense it will be found that there is no slighting of mental dexterity, no injurious deviation from accepted methods, and certainly no sacrifice of mathematical rigor. If the arrangement of chapters here adopted is not acceptable, it is entirely feasible to take the topics in the traditional order. The index will facilitate this rearrangement. Whether or not teachers agree with me in respect to the ordering of topics or the method of attack which...
