Zimbardo, John Boyd, Every significant choice, every important decision we make, is determined by our perception of time. In this fascinating book, the award-winning past president of the American Psychological Association, Philip Zimbardo, and his co-author, John Boyd, show how: the way you perceive time is as unique as your fingerprints; these individual time perspectives shape your life, and the world around you; you can change the way you perceive time, so you get the most out of every minute; and, if you don't, the power of time in the modern world is so immense that it will take its toll on you.
