GAO reviewed airport runway maintenance nationwide to determine whether airport owners are properly maintaining their runways. Between 1970 and 1981, the Federal Aviation Administration (FAA) invested approximately 750 million to construct and improve many of the Nations runways in return for the owners assurances to properly maintain the airports. GAO found that, in a substantial portion of the airports it visited, critical runway pavement maintenance was being deferred, and there is evidence that the problem is nationwide. Most of these cases involved the failure to promptly repair pavement cracks. Delaying needed repairs often leads to structural problems in the underlying pavement, thereby increasing rehabilitation costs. Lack of funds was the primary reason airport representatives cited for deferring maintenance; however, FAA failure to report poor maintenance conditions and practices during routine airport inspections and to require the owners to make timely repairs was a contributing factor. Despite recent FAA efforts to improve pavement maintenance guidelines, GAO believes that FAA may have to use administrative or judicial actions to obtain compliance, if owners do not comply voluntarily. This item ships from La Vergne, TN. Paperback.
