Absolutely essential study book. It normally fails to price excessive. I realized this ebook from my dad and i encouraged this publication to find out.

Createspace Independent Publishing Platform, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. All he wanted was a regular job. Paul Trouble may not hold the most exciting job in the world as a pencil pusher and finance controller in Strom Industries Mergers and Acquisition department. But for the former elite soldier and CIA spy still mentally recovering from the injury that forced him out of the spy-game, this is his shot at a normal life in a normal job with normal problems-like enduring girlfriend troubles, despising his pompous boss, and being killed by Excel-induced boredom. One hundred million dollars missing. Until Strom Industries CEO asks him personally to investigate the mystery of one hundred million dollars missing from one of Strom s subsidiaries. Thrown back into cloak and dagger games, Paul assembles a small team to stir things up and discover who is behind the missing money. The plan is simple: Ask a few questions, make people nervous, and see what happens. Turning into a deadly cat and mouse game. What first looks like an inside job soon turns into murder and mayhem where pencil and stapler are exchanged with knives and bullets, giving a literal meaning to the term troubleshooter.
