THE CYDONIA CODEX: REFLECTIONS FROM MARS

Frog Books, 2005. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: The Cydonia Codex offers persuasive evidence of artistic and symbolic design on the surface of the planet Mars - and of an ancient base established there by the same beings, the Annunaki, that created humankind. The authors' research encompasses over ten years of study and analysis of NASA photographs of the "Face on Mars" and its surrounding complex. Beginning with the famous 1976 photograph of a mile-long formation in Mars's Cydonia region that strongly resembles a human face, Haas and Saunders present compelling evidence for a terrestrial connection between Cydonia and Mesoamerica. The book's side-by-side comparison of the face (a split-faced geoglyph) and masks at a temple in Belize lends support to the notion of a prehistoric Martian civilization paralleling ancient cultures on Earth. The implications here are staggering. If these structures are remnants of the Annunaki, then Earth's - and humankind's - history must be rethought. Includes black-and-white photos throughout, as well as illustrations.
