Not only is it easy, but it doesn t cost a cent to enjoy fresh air and sunshine. Plus, you gain the added bonus of experiencing new sights - depending on the area where you walk. Even if you walk just to get out of the house, you re going to reap some rewards for your body from this simple movement. By doing something that s easy and fun, you reward your body with a healthier, longer life. Many health related problems are directly related to a lack of movement. The more sedentary a person is, the higher the risk they have of experiencing a serious health issue - and a shorter lifespan. Walking is one of the easiest ways that you can prevent health problems. This simple, yet effective means of exercise is a great way to lose weight, build your muscles, add bone strength and relieve overall body tension. These small goals add up to reaching the bigger goal. Plus, when you break down your larger or long term goals into smaller ones, you achieve a can do mindset.
