## The Wormhole Implosion Motivated Christmas Tree Light-Sail Smorgasbord. Notes on Novel Light-Sail Propulsion Methods. Volume 41.

By James M Essig

Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 280 x 216 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.In this series of volumes, we present yet additional propulsion modes. One new mode involves the concept of wormhole expansion or production in connected and proximate lengths of throats but which then explosively implode thereby releasing large quantities of energy into a suitable spacecraft chamber, say for example, a wormhole reactor. The energy can then be used for direct propulsion as in a sail mechanism, an exhaust chamber, or alternatively be converted to electrical power to operate electrical propulsion systems. We will use an abbreviated form of the following operator to denote the implosive wormhole power sources dimensionless propulsive power enhancement factor:  $\{(\text{Context Specific})\}$ . The operator is context specific in value and may thus vary depending on its instantiation and location in the two lengthy formulas provided in this series of books. Another propulsion mode involves speculation on prospects that electromagnetic energy may have hidden classical variables such as hidden energy and/or momentum. Such hidden variables if existent might be generally uncloaked or uncloaked to provide additional propulsion energy per unit of incident electromagnetic...

### Reviews

*A must buy book if you need to adding benefit. This really is for all those who statte that there had not been a really worth looking at. Your daily life period will likely be change when you complete reading this publication.*

-- **Veronica Hauck DVM**

*This pdf is very gripping and fascinating. We have read and that i am certain that i am going to going to read once more again in the future. Once you begin to read the book, it is extremely difficult to leave it before concluding.*
