

History of Computing: Software Issues

Filesize: 8.45 MB

Reviews

This book is really gripping and fascinating. Of course, it is actually play, nonetheless an interesting and amazing literature. You will not feel monotony at anytime of the time (that's what catalogs are for about if you request me).
(Delbert Gleason)

Springer-Verlag Berlin and Heidelberg GmbH & Co. K. Paperback. Condition: New. 283 pages. Dimensions: 9.0in. x 6.0in. x 0.7in. The papers in this volume were presented at a conference that was designed to map out historical study needs in one area of the history of computing, namely, software. The Paderbom conference was sponsored by the Heinz Nixdorf MuseumsForum and co-sponsored by the Charles Babbage Institute and the Heinz Nixdorf Institute of the University of Paderbom. The idea for the conference emerged from the consideration of a larger concept that was to prepare a new handbook on the history of computing. Believing that preparation of the handbook would encounter obstacles in some areas of computing that have not received adequate attention from historians, the originators of the idea of the handbook decided on a series of mapping conferences to try to overcome the obstacles, of which the Paderbom conference is the first. The organizers of the conference invited a group of historians, sociologists, and computer scientists to present papers and comments about a selected set of issues in the history of software. The organizing committee consisted of William Aspray (Computing Research Association, Washington, D. C.), Martin Campbell-Kelly (University of Warwick, U. K.), Ulf Hashagen (Heinz Nixdorf MuseumsForum, Paderbom), Reinhard Keil Slawik (Heinz Nixdorf Institute, University of Paderbom), Michael S. Mahoney (Princeton University) and Arthur L. Norberg (Charles Babbage Institute, University of Minnesota). This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
