Good electronic book and useful one. It usually does not expense a lot of. It is extremely difficult to leave it before concluding, once you begin to read the book.

Sage Publications Ltd, United Kingdom, 2014. Hardback. Condition: New. Language: English . Brand New Book. This is a thorough and well-structured piece of work, which brings in the recent work of excellent authorities such as Barbara Ingram. It is well arranged, with many examples and case vignettes, which bring the material to life in an engaging way. I enjoyed reading it, and would recommend it unreservedly. John Rowan, humanistic therapist, private practice `This is a must-read book for students on courses in counselling, psychotherapy, clinical psychology and psychiatry. Heather Fowlie, Head of the Transactional Analysis Department, Metanoia Institute, London Conducting a competent assessment and case formulation can be a daunting task for trainee therapists engaging in clinical assessment for the first time. This book is designed to help, by unpicking the many aspects involved in assessment and case formulation across modalities, practice settings and client groups. The book: * Explores key elements of clinical assessment including diagnosis, risk assessment, ethical considerations and accounting for difference. * Highlights the necessary skills, techniques and legal requirements at each stage of the process. * Takes into account the impact of culture, context and theoretical and practical considerations. * Uses case studies and reflective questions to illustrate difficult concepts in context.
