

On Carleson measures and Hankel forms of higher weights on Hardy space

Filesize: 2.67 MB

Reviews

Very good electronic book and useful one. it absolutely was writtem extremely completely and useful. You will not feel monotony at at any moment of your respective time (that's what catalogs are for relating to when you question me).
(Prof. Noah Zemlak DDS)

ON CARLESON MEASURES AND HANKEL FORMS OF HIGHER WEIGHTS ON HARDY SPACE

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | In this book, we are concerned with two problems. The first problem is to describe Carleson measures for Hardy Sobolev spaces and the generalized Bergman spaces in the unit ball. We give, by means of Green's formula, an alternative proof of the characterization of Carleson measures for some Hardy Sobolev spaces (including Hardy space). We also give a new characterization of Carleson measures for the generalized Bergman spaces (including the Drury-Averson space) on the unit ball, in terms of testing on balls, using $T(1)$ -Theorem type techniques for singular integrals. The second problem concerns bilinear Hankel forms of higher weights on Hardy spaces of the unit ball. We show that these Hankel forms are bounded and compact if and only if the symbols satisfy certain Carleson measure criteria and vanishing Carleson measure criteria, respectively. We get a full characterization of Schatten class S_p Hankel forms for p great or equal to 2, in terms of the membership for the symbols to be in certain Besov spaces. | Format: Paperback | Language/Sprache: english | 213 gr | 220x150x8 mm | 148 pp.
