Reviews

Great electronic book and useful one. It can be written in straightforward terms rather than difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Brand New Book ***** Print on Demand *****.Perhaps all religions, unless the flaming onset of Mohamme-danism be an exception, have dawned imperceptibly upon the world. A little while ago and the thing was not; and then suddenly it has been found in existence, and already in a state of diffusion. People have begun to hear of the new belief first here and then there. It is interesting, for example, to trace how Christianity drifted into the consciousness of the Roman world. But when a religion has been interrogated it has always had hitherto a tale of beginnings, the name and story of a founder. The nascent religion that is now taking shape, it seems, had no founder; it points to no origins. It is the Truth, its believers declare; it has always been here; it has always been visible to those who had eyes to see. It is perhaps plainer than it was and to more people-that is all. It is as if it still did not realise its own difference. Many of those who hold it still think of it as if it were a kind of Christianity. Some, catching at a phrase of Huxley s, speak of it as Christianity without Theology. They do not know the creed they are carrying. It has, as a matter of fact, a very fine and subtle theology, flatly opposed to any belief that could, except by great stretching of charity and the imagination, be called Christianity.
