Paperback. Book Condition: New. Paperback. 118 pages. Through the use of letters, Letters on the Promise of Living, shares the wisdom and principles that can lead to a meaningful and purposeful life. The center core of the letters is the six great philosophical questions. What is truth What is beauty What is justice What is liberty What is equality What is goodness In addition, questions of happiness, meaning, relationships, courage, sadness and suffering, and others comprise corollary letters. As Socrates said, an unexamined life is not worth living. These letters are designed to help the reader with that examination. From the time we are born until the time we die, we all search for the meaning of life. Wisdom based on sound principles carries an obligation to live a life of purpose guided by virtues and marked by honorable behavior. We want our children and grandchildren to lead happy and fulfilling lives -- filled with wisdom and meaning. In the past, wisdom was passed from generation to generation from the elders: grandfathers, grandmothers, and others. But in today's mobile society, passing wisdom to the next generation is more difficult. Letters on the Promise of Living provides insight into the great philosophical questions and values that will help people lead a principled life -- a good life, well-lived. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
