paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 119 Publisher: People's Health Publishing House Pub. Date :2006-02. The book of modern molecular biology Research ideas for the clues to a variety of commonly used experimental techniques in five sections. The first part focuses on the molecular biology laboratory experiments must be mastered before the rules of common sense and basic safety operations. The second part of the process of molecular cloning procedures were introduced for the purpose of gene acquisition. gene connected with the carrier and the recombinant DNA molecule identification. The third part of the success of the recombinant DNA construct. based on the described in prokaryotic and eukaryotic cells. expression of exogenous DNA methods. protein separation and protein molecules and quantitative immunoblotting techniques. Part IV focuses primarily on the identification of nucleic acid molecules. respectively. from probe labeling. hybridization methods. the talks. adding the current rapid development of gene chip technology. Part V describes some current research in molecular biology. bioinformatics methods used. including the popular website. software and analysis methods. This book for molecular biology experiments to open medical college undergraduate classes. junior college students. graduate students and can be used as the primary experimental techniques of molecular biology research workers in the reference book. Contents: Notice the second part of the first part of the experiment recombinant dna test to get the first chapter of the target gene experiment a tissue extraction of genomic dna test two cells in rna extraction and cdna synthesis of nucleic acid molecules Experiment 3 Experiment 4 quantitative polymerase chain type reaction amplification of the target gene with Chapter II gene recombinant vector experimental five restriction endonuclease digestion of dna to test six electrophoretic separation...
