Excerpt: . . . will be gained from an experimental study of ones soils through the behavior of the crops. 3. In WHAT Forms rs rr BEST TO BUY PLANT. Foon We have previously seen that we can obtain nitrogen in several different forms, such as nitrate of soda, sulphate of ammonia, dried blood, tankage, fish. scrap, etc. Similarly we find in the market phosphoric acid obtained from several different sources, and we also find several different potash compounds. When we come to use fertilizing materials as a source of plant. food, we must decide which specific forms we shall apply. To illustrate, in applying some form of nitrogen, shall we use nitrate of soda, or sulphate of ammonia, or dried blood or fish. scrap Shall we use as our source of phosphoric acid bone. meal, dissolved bone, acid phosphate, dissolved bone. black or Thomas slag Shall we apply...

Reviews

This is the finest publication we have read through right up until now. Better then never, though i am quite late in start reading this one. Its been written in an remarkably easy way in fact it is only after i finished reading through this book by which basically altered me, affect the way i think.

-- **Dr. Gabriella Hayes**

This book is great. it was writtern quite flawlessly and helpful. You will not truly feel monotonny at whenever you want of your time (that's what catalogs are for concerning if you ask me).
