BIOCHEMICAL MESSENGERS: HORMONES, NEUROTRANSMITTERS AND GROWTH FACTORS (PAPERBACK)

Springer, Netherlands, 2012. Paperback Condition: New. Language: English. Brand New Book. The central theme of this book is that systems of cell-cell signalling via nerves, hormones, local mediators and growth factors are not distinct phenomena, but branches of one general mechanism. These topics therefore can and should be discussed in an integrated manner, and the division of cell signalling studies into separate pigeonholes such as neuroscience, endocrinology or cancer biology is unnecessary, if not counterproductive. I also believe it..

Reviews

An incredibly wonderful ebook with perfect and lucid explanations. I really could comprehend every little thing using this written publication. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Tomas Flatley**

An extremely wonderful book with perfect and lucid explanations. This really is for those who state that there had not been a worth reading. Your way of life span will be convert when you comprehensive reading this book.
