The men in the coal mines around River Town seem to be developing a mysterious condition that no one can explain, yet everyone is whispering about it. Before all is said and done, each of these characters will intersect in unexpected ways. The resolutions are as suspenseful as they are satisfying. River Town is a collection of short stories set in 1890s West Virginia. The combined work of six different authors, the tales range from adventure to romance, from intrigue to fantasy. Each story stands alone, yet together they take readers to a time along the Kanawha River just after the Civil War when families were still struggling to recover and as the railroad was first making its way through the mountains. The river was the center of everything.
